

Built to match the walls, one cabinet holds the phonograph and radio, the other the loudspeaker

Cabinet Ideas for Radio Builders

WITH unmounted radio chassis, home owners handy with tools can build cabinets to harmonize with the decorative scheme of a particular room. Four suggestions are shown in the photographs on this page. At the top, twin cabinets were built of knotty pine, one housing the radio and phonograph and the other the loudspeaker. Other schemes pictured are a unit built into the end of a divan, a modernistic cabinet separating a living room and foyer, and a cabinet for an entrance hall.

Here are three other methods of adapting the radio to the architectural and decorative scheme of an individual room
